# THE ISLAND THAT WELCOMES ALL

Born from four pilot projects in Alghero, Orosei, La Maddalena and Carloforte, The Island That Welcomes is an initiative of the Sardinia Region, promoting sustainable and inclusive tourism through the Design for All approach. Building on the results achieved, the project aims to expand to 20 coastal municipalities, ensuring full access to the sea and the territory for all.

# BUILDING TOGETHER: The Heart of Participation

The Island That Welcomes grows from the genuine involvement of people. Users, families, and operators actively take part in building an inclusive model of hospitality.
